

THE ULTIMATE CARGO RETRIEVAL SYSTEM

Fleet Design and Custom Slide Division

Cargo Ease Fleet Design and Custom Slide division is an important part of what makes Cargo Ease Inc. a premier manufacturer in the industry. Our ability to help design and manufacture custom slides for various fleets in North America is second to none. High capacity slides up to 3,000lb capacity and options that other manufacturers just don't have, is what set us apart from the rest of the pack. Whether you need sliding tie downs, folding side rails, custom size side rails, custom size slides or our award winning brake or ramp systems, Cargo Ease has what is needed to make your slide truly yours.

Cargo Ease has designed and manufactured slides for various fleets throughout North America including but not limited to:

- Bell Canada
- Rogers Communications
- Hydro One Network Services
- Manitoba Hydro
- ATCO Electric Inc.
- CN Rail
- Thyssen Krupp Elevators
- Fastenal
- Time Warner
- Ontario Provincial Police
- Canadian Armed Forces

As well as various emergency and first response vehicles

Supporting these fleets has given Cargo Ease an opportunity to work with some of the best up fitters and outfitters in North America. Cargo Ease has been very successful at partnering with only the best installers in our industry.

With all this in mind we hope you choose Cargo Ease for all your Fleet slide and custom cargo accessory needs. Please also visit the Cargo Ease website at www.cargo-ease.com and check out our other cargo management solutions.

Best Regards,
Cargo Ease Management
