

AMP RESEARCH BedStep®

- High-traction, composite step pad for secure, all-season stepping even in wet or muddy conditions.
- Easily deploys and retracts with a nudge of your foot. Stows safely under the rear bumper leaving the hitch receiver free for towing or accessories.
- BedStep® gives easy access your truck bed with the tailgate open or closed

FLIP DOWN. STEP UP. The AMP Research BedStep® easily deploys and retracts with one simple nudge of your foot providing easy access to the truck's cargo bed – tailgate open or closed. This convenient bumper step installs in minutes (no drilling) with standard hand tools using your truck's factory bumper and frame mounting points.
