-- 50 MPH -- 7.769 -- 6.609	
-- 60 MPH -- 10.134 -- 8.621	

Accelerate to 60 mph.

Made for iPod iPhone

The Superchips iHawk uses iMiken's Patent-Pending AccuPerformance system to acquire vehicle data, weather data, and performance data and integrates them all to provide accurate results. It's like having a portable dyno, digital gauge kit, trouble code scanner, data logger, and 1/4 mile drag strip for your vehicle neatly controlled and packaged within your iPhone® or iPod touch®.

**PRE-ORDERS: NOW**

**ESTIMATED SHIP DATE: 8.31.2012**
