

**PURCHASE 5 & GET  
 ONE FLASHPAQ FREE!\***

Choose from multiple power levels and a variety of user-tunable options. Flashpaq gives you dyno-proven power for either 87- or 91-octane, so you can choose according to your need for speed or your gas-card balance. Diesel trucks can choose from max-performance, towing or economy tunes. There's no hard part in the business that will give you more power per dollar. But if you like hard parts, Flashpaq is friendly with almost every cold-air intake package, low-restriction exhaust system and even some aftermarket throttle bodies.

The innovative Cortex is Superchips premium handheld tuning device that lets drivers control and improve their vehicle. In just a few minutes drivers can easily add more horsepower and torque without opening the hood. Advanced features include calibrating for tire size and gear swaps; adjust shift points and firmness, speed and rev limiter and much more. The Cortex includes up to three best-in-class tuning levels and is easy-to-install requiring no tools.

Your off-roading and Jeep experience is incomplete without the Superchips TrailDash. The TrailDash is the most advanced Jeep tuner on the market today. The TrailDash was designed by hardcore Jeep enthusiasts and features Superchips' proven street and trail tunes which have been tested in multiple altitudes and climates, including the legendary trails at MOAB.

**VIVID**  
**LINQ**

The power of Superchips and the Android™ operating system are now at your fingertips. The state-of-the-art VIVID is the only device of its type to successfully integrate many of today's popular consumer electronics with a full-blown wireless performance tuning device. The key is the combination of Superchips high performance vehicle tuning and the Android™ OS smartphones.\* LINQ is a Bluetooth wireless vehicle tuning interface that turns your phone into a performance tuner, diagnostic trouble code tool, PID reader, and more with the touch of the phone screen. Together they open up a whole new world of possibilities.

*Works with most popular Android smartphones OS 2.2 or newer. Visit [superchips.com](http://superchips.com) for specific details on phone compatibility.*
