

Jeep Wrangler Rear Vision

3 Kits Add Safety to 2007-2014 Models

Finally — an answer for Jeep Wrangler owners who want to add the safety and practicality of Rear Vision.

Brandmotion's innovative line of Jeep Wrangler Rear Vision Systems gives you the edge in back-up protection that's not available anywhere else.

Features:

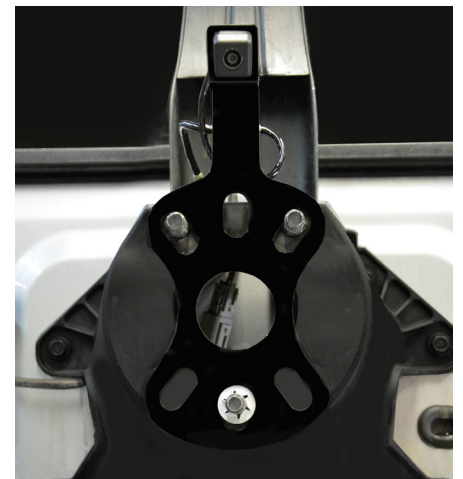

- Unique high-mount camera system for Jeep Wrangler
- Brandmotion-exclusive design
- Innovative spare tire hub mounting bracket
- OEM-validated camera
- CCD technology for image crispness & nighttime brightness

Select from 3 kits based on available display options in the vehicle:

P/N 9002-8826 - for vehicles requiring a mirror-based solution
Includes Authentic OEM replacement mirror with 3.5" monitor and auto dimming capability

P/N 9002-8827 - for vehicles with a factory radio / navigation display
Includes a programming module that temporarily plugs into the OBDII port to code the radio. **NO DEALERSHIP ACTIVATION NEEDED!**

P/N 9002-8828 - for vehicles with an aftermarket display
Includes composite (RCA) plug for connection to video input on monitor
