# SCT

## MORE POWER! LESS FUEL!

# X4
## POWER FLASH

### THE NEXT
# GENERATION
## VEHICLE PROGRAMMER

From the factory, your vehicle's computer is calibrated for the masses, designed with the average driver in mind, not the performance enthusiast. This not only leaves valuable Horsepower & Torque hidden inside your vehicle, but it also makes for a mediocre driving experience. The NEW SCT X4 Power Flash unlocks your vehicle's hidden performance by optimizing your vehicle's computer for Maximum Horsepower, Torque, Increased Throttle Response, Firmer Shifts & even Increased Fuel Mileage!

### BUILT-IN WIFI FOR EASY UPDATES
Built-in Wifi connectivity attaches to your local wireless network for easy device updates.

### FULL COLOR LCD DISPLAY
Full Color LCD screen with auto dim feature & user adjustable portrait / landscape modes.

### PRE-LOADED PERFORMANCE
Pre-loaded with Dyno Proven, Track Tested performance tunes for the most popular vehicles.

### HOLDS 10 CUSTOM TUNES
Holds up to 10 Custom Tune files for maximum on-device tune selection.

### LOGGING & MONITORING
Monitor your vehicle's PCM data live in real-time on screen or using SCT's LiveLink Data Logging software.

### COMPACT DESIGN
Styled after our popular X3 programmer, the new X4 is smaller & more compact.
(2.75" wide X 5.5" high)
