

LED SYSTEMS

Overhead C-Series LED Light Bar Systems

These systems provide everything needed to easily add powerful LED lighting to your truck or Jeep.

- Includes 50" C50 LED light bar and all necessary hardware
- Truck overhead brackets mount in door jams for a clean, custom look
- Heavy duty overhead brackets for Jeep JK and TJ mount securely to windshield frame

| Part # | Year | Model / Description |
|------------------------|-----------|--|
| CHEVROLET / GMC | | |
| 371 | 2007-13 | Silverado/Sierra 1500 |
| FORD | | |
| 376 | 1999-2014 | F-250/F-350/F-450 Super Duty (Cannot have factory roof lights) |
| 378 | 2009-14 | F-150/Raptor |
| JEEP | | |
| 366 | 2007-14 | JK Wrangler |
| 369 | 1997706 | TJ Wrangler |
| TOYOTA | | |
| 380 | 2005-14 | Tacoma (Double Cab only) |

Intended for off-road use only

- Stylish mesh design with solid outer frame for sturdy durability
- Satin black two stage powder-coat finish with gloss black KC logo
- Includes C-Series LED light bar, wiring harness and mounting hardware
- Light opening accepts a C10 or C20 LED light bar depending on application

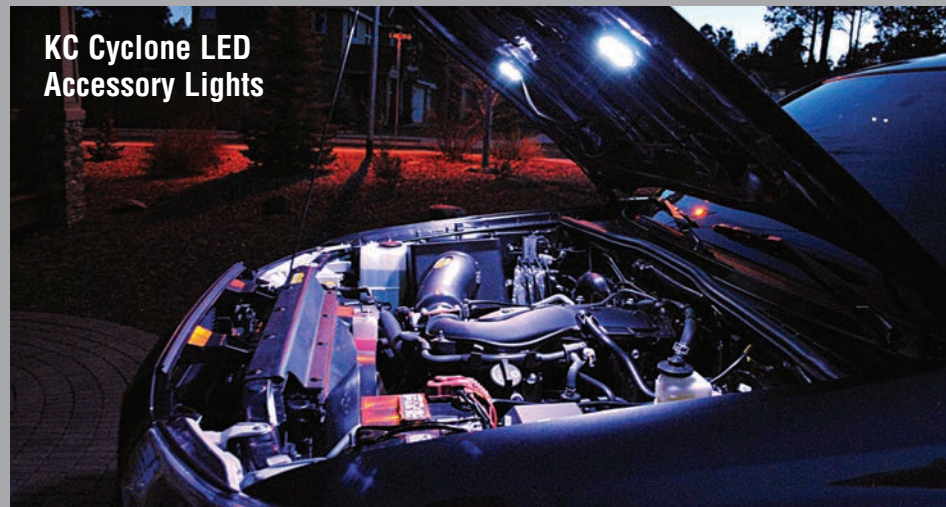

KC LED Truck Grilles

These vehicle specific replacement grilles are engineered to mount in the OEM locations with supplied premium quality hardware.

| Part # | Year | Model |
|------------------------|---------|------------------------|
| CHEVROLET / GMC | | |
| 75001 | 2011-13 | Silverado 2500/3500 HD |
| 75010 | 2007-13 | Sierra 1500 |
| FORD | | |
| 75040 | 2008-10 | Super Duty F-250/F-350 |
| 75041 | 2011-14 | Super Duty F-250/F-350 |
| 75042 | 2009-13 | F-150 |
| JEEP | | |
| 75030 | 2007-14 | Wrangler JK |
| TOYOTA | | |
| 75050 | 2005-11 | Tacoma |
| 75051 | 2012-13 | Tacoma |
| 75052 | 2010-13 | Tundra |

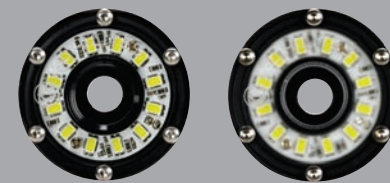

CYCLONE LED

Bright LED accessory lights add extra lighting to your engine bay - Toyota Tacoma under hood 2-light kit shown

KC's new Cyclone LED accessory lights easily provide extra lighting wherever it's needed most.

- Compact 2.2" dia. and flat profile allows use as a dome light, under hood engine bay light, rock light, emergency repair light and more
- IP68 rated dust and waterproof design
- Easily attaches anywhere with a Dzus clip or other readily available fasteners
- Comes ready to wire into any 12 volt power source
- Choose from clear, diffused, amber, red, blue or green models
- Also available in ready-to-install kits that includes wiring and water proof switch for Jeep JK, Toyota Tacoma, Ford Raptor and Universal applications

#1350 - Clear #1351 - Diffused

#1352 - Amber #1353 - Red

#1354 - Blue #1355 - Green

| Single Light Part # | Description | Lens Color | Beam Pattern | Wattage / LED Type | Lumens | Width | Depth |
|---------------------|-------------------------|------------|--------------|--------------------|--------|-------|-------|
| 1350 | 2" Mini Accessory Light | Clear | Flood | 5w / SMD5630 | 400 | 2.20" | 0.53" |
| 1351 | 2" Mini Accessory Light | Diffused | Flood | 5w / SMD5630 | 400 | 2.20" | 0.53" |
| 1352 | 2" Mini Accessory Light | Amber | Flood | 5w / SMD5630 | 400 | 2.20" | 0.53" |
| 1353 | 2" Mini Accessory Light | Red | Flood | 5w / SMD5630 | 400 | 2.20" | 0.53" |
| 1354 | 2" Mini Accessory Light | Blue | Flood | 5w / SMD5630 | 400 | 2.20" | 0.53" |
| 1355 | 2" Mini Accessory Light | Green | Flood | 5w / SMD5630 | 400 | 2.20" | 0.53" |

| Kit Part # | Description |
|------------|--|
| 350 | Universal DIY Cyclone LED Light Kit - one light, weatherproof switch, bulk wire & butt connectors, mounting hardware |
| 351 | JK Under Hood LED Light Kit - one light, wiring harness w/ weatherproof switch, mounting hardware |
| 352 | Raptor Under Hood LED Light Kit - two lights, wiring harness w/ weatherproof switch, mounting hardware |
| 353 | Tacoma Under Hood LED Light Kit - two lights, wiring harness w/ weatherproof switch, mounting hardware |

2015 New Products Guide

FLEXSERIES

FLEX Dual #271

Flex the Possibilities with KC's New Modular and Expandable High Performance LED Lighting Platform

KC's unique FLEX Series LEDs offer powerful lighting performance plus custom personalization never before available. Available in FLEX Single, FLEX Dual plus 10 & 20-inch FLEX Array LED light bars. The FLEX Dual and FLEX Array LED lights are a modular design that allow users to join them together using special connectors to expand the width or stack them to create infinite configurations.

FLEX Array 10" #273

- Each 10-watt head unit provides a huge amount of light in a small package
- Patent pending FLEX Power Connection Bar provides a power pass through, so no matter how many FLEX Duals or FLEX Array 10" LEDs you link together, there is only one power wiring lead
- 5,700K color temperature
- 50,000 hour LED life
- Precision reflector optics
- Aluminum housings
- IP68 rated
- Protected against EMI interference
- Operates on 9 to 18 volts
- 10" Flex Array features spot beam pattern
- 20" Flex Array features combo spot / spread beam pattern
- Includes wiring harness with waterproof connectors

Part No. 12724 "Linker Kit" allows the Flex Arrays to be connected end-to-end to create any desired configuration

| Pair Pack System # | Single Light System # | Model / Description | Beam Pattern | No. of LEDs | Watts | Volts | Amps | Lumens | Width | Height | Depth |

Systems include mounting brackets, switch & wiring harness

GRAVITYSERIES

6" Pro-Sport Gravity Driving #644 - Pair

6" Gravity Insert Spot #42133 - Single #42134 - Pair

4" x 6" Gravity Driving #711 - Pair

4" JK Gravity Fog #494 - Pair

#494 JK Gravity 4" Fog Light System is a direct replacement for use on O.E. bumpers

Gravity is the next evolution in LED lighting. Powered by KC's patented Gravity Reflective Diode (GRD) technology, Gravity LEDs combine the advantages of LED lighting with the proven performance of precision reflector optics. This maximizes their effectiveness and amplifies the amount of light that is projected. The result is an extremely bright light that provides significantly greater distance vision as compared to conventional LEDs.

6" Pro-Sport Gravity LED Lights

- Compact, impact resistant Polymax composite housings
- IP68 rated & Protected Against EMI Interference
- 5,000K color temperature
- Available in Spot or **SAE/ECE Certified Street Legal Driving Beam** models
- Pair packs include pre-terminated wiring kit with waterproof connectors & protective stone guards
- Individually packed lights include protective stone guard

6" Gravity LED Inserts

- Simple plug-n-play drop-in LED conversion for halogen Daylighters® & halogen 6-inch Pro-Sport lights
- IP68 rated & Protected Against EMI Interference
- 5,000K color temperature
- Available in Spot or **SAE/ECE Certified Street Legal Driving Beam** models

4" x 6" Gravity LED Driving Lights

- **SAE/ECE Certified Street Legal**
- IP68 rated & Protected Against EMI Interference
- 5,000K color temperature
- Pair packs include pre-terminated wiring kit with waterproof connectors & protective stone guards
- Individually packed lights include protective stone guard

4" Gravity LED Fog Lights

- **SAE/ECE Certified Street Legal**
- IP68 rated & Protected Against EMI Interference
- 6,500K color temperature
- Two models available:
 - Replacement for Jeep JK with O.E. bumpers (pair with wiring harness)
 - Universal mount (single light)

| Pair Pack Part # | Single Light Part # | Model / Description | Beam Pattern | Watts | Volts | Lumens | Width | Height | Depth |

AMBER C SERIES

#317 - C20 Amber LED light bar includes wiring harness

#315 - C3 Amber Spot LED System Includes 2 lights and wiring harness

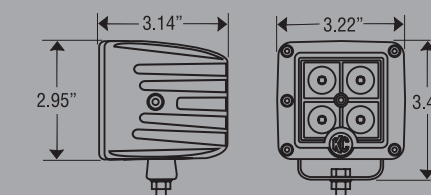

KC Amber C-Series LED lights appear to be clear in nature when off, but when powered they project a distinct amber beam of light. This type of lighting is often associated with reducing glare and improving visibility in inclement weather conditions or dust where the reflective glare produced from blue/white light can often be bothersome to the human eye. This type of lighting is also quite popular for off-road desert racing where encountering heavy dust at night is a constant hazard. Many enthusiasts prefer them on their vehicles for their aesthetic appeal.

- 50,000 hour LED life
- Operates on 9 to 32 volts
- On-board thermal management
- Protected against RFI/EMC interference
- For off-road use only

AMBER C3 LED LIGHT:

- Spot beam pattern
- IP67 rated die-cast aluminum housing
- Pair packs include wiring harness with waterproof connectors

AMBER C3 DIMENSIONS

AMBER C10 & C20 LED LIGHT BARS:

- Combo spot / spread beam pattern
- IP67 rated extruded aluminum housings with die-cast mounting brackets
- End caps with GORE® membranes for extreme resistance to moisture and dust
- Includes wiring harness with waterproof connectors
