BEDTRED®

NEW

The Next Generation Bedliner!

BedRug Inc. is pleased to launch, BedTred an innovative full bed liner that provides a rugged, textured work surface with the appearance of a spray-in liner. BedTred offers superior features, including dent & cargo protection, quick & easy install, and a lifetime warranty. The textured anti-skid surface is UV resistant and surpasses any other liner on the market today.

**OUTPERFORMS
SPRAY-INS**

BEDTRED FEATURES:

EASY INSTALLATION

BedTred is a 5-piece liner that installs with hook and loop fasteners. No drilling, no sanding, no prepping, and no damage to the truck bed. Quick and easy installation by one person in under 30 minutes.

SUPERIOR PROTECTION

BedTred Bed Liner is made of 1/4" exclusive TPO composite bonded to a layer of water proof, closed-cell foam. The textured surface prevents cargo from sliding, while the thick foam and non-woven fiber backing prevents damage and will not scratch your truck bed.

NON-SKID SURFACE

BedTred's textured surface prevents cargo from sliding or shifting during transport. Designed to act as a shock absorber, BedTred provides cushion for a knee friendly surface, and protects the truck bed from any impact damage.

GREAT LOOKS WITH A CUSTOM FIT

BedTred is custom formed to fit the contour and shape of the bed for a snug, tight fit, with a smooth, flat surface. Maintains the original shape and features of the truck bed, and full access to any factory tie-downs.

BedRug, Inc. is a THI Company and a pioneer and industry leader in the development and manufacture of molded, closed-cell polypropylene foam bed liners. BedRug is well known throughout the aftermarket, and its name is synonymous with high quality, and innovative, durable bed protection for pick up trucks.

BedTred, winner of the 2008 SEMA Best New Exterior Accessory Product, is a great addition to the BedRug product line!
