

PUTCO®

LED Strip Lighting Kits

LED Truck Bed Lighting Kit

OSRAM LEDs

Sensor Switch

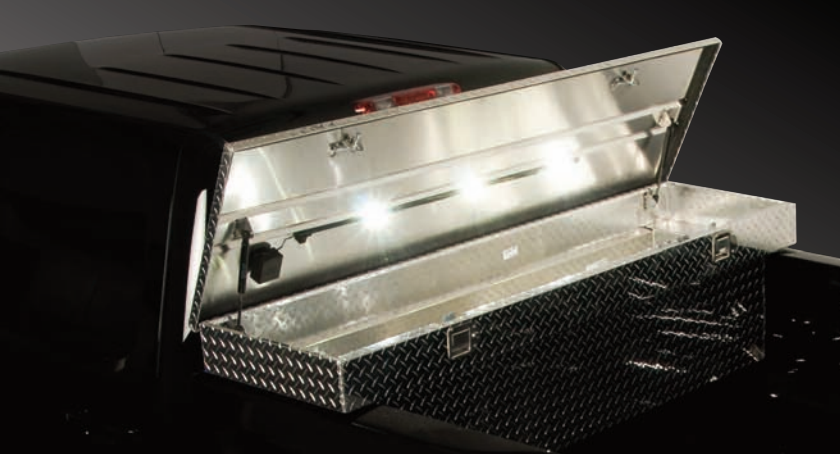

- ▼ High-power OSRAM LEDs provide bright illumination of the truck bed, toolbox, or any area the kits are mounted.
- ▼ Each kit is created utilizing 3M's Light-by-Wire technology, a low-profile, flexible and durable system providing 100% weather-proof protection.
- ▼ Truck Bed and Single Strip Light Kit features fully electronic capacitive sensor switch to turn the lights on and off. Simply wave your hand within 1/4 inch of the switch and the kit turns on and off, no need to search for any switch in the dark. (Automatically shuts off after 20 minutes to prevent battery drainage.)
- ▼ Easy installation with pre-applied 3M Automotive Attachment Tape.
