

Superchips Releases 2011 Ford Mustangs

Every **MUSTANG** needs **Superchips** tuning. Superchips unlocks the true performance potential of the 2011 Mustang GT 5.0 and V6 Mustang. Your Mustang is meant to perform and Superchips delivers. You can tune for performance or use one of the many advanced features. The choice is clear. Demand Superchips and our 27 years of doing-it-the-right way attitude. You will experience the difference.

- Many new features other tuners don't have (e.g. skip shift

disable, global spark adder, hi-flow cat options and trans options)

- Custom performance tunes will be available from Superchips for many popular cold air intake kits
- Monitor & record driving & vehicle performance with data logging
- Real-time vehicle sensor display
- 2-year limited powertrain warranty – **Cortex Only**
