AIR AID

NEW PowerAid & Pre-Filter Planograms

Introducing AIRAID's new **PowerAid & Pre-Filter Planograms**! These displays are designed to improve product awareness and overall sales. The displays will feature three (3) live units of either **PowerAid** throttle body spacers or six (6) **AIR AID Pre-Filters** and include a custom wire rack display which incorporates a header card with full graphics. The wire rack can be placed on a counter top or hung on a peg board display wall.

The **PowerAid planogram** includes three (3) of our most popular PowerAid part numbers featuring; Chevrolet (200-617), Ford (400-531) and Jeep (310-510). In addition to the saleable units, the rack also includes three additional display only clamshell units (999-806) for additional product awareness. Act quickly and receive a **\$30 mail in rebate** direct from AIRAID after purchase of this exciting new **PowerAid planogram!**

The **AIR AID Pre-Filter planogram** will include six of our most popular Pre-Filter part numbers that accommodate both gas & diesel applications. Including part numbers (799-128, 799-420, 799-456, (2) 799-469, 799-472) for, Chevrolet, Ford, Jeep and Dodge. By having this live product display in your showroom or storefront you will increase Pre-Filter sales at the time of purchase with one of our popular AIRAID intake systems.
