

GROUNDBREAKING

EVERY NOW AND THEN A NEW TUNING PRODUCT
COMES ALONG SO UNIQUE IT CHANGES EVERYTHING.

VIVID

TUNING | PERFORMANCE | INFORMATION | ENTERTAINMENT

Superchips

WWW.SUPERCHIPS.COM

DEVICE SHOWN ACTUAL SIZE.

OVERVIEW & FEATURES

The power of Superchips and the Android™ operating system are now in the palm of your hands. The state-of-the-art Superchips Vivid is the first device of its type to successfully integrate many of today's popular consumer electronics with a full blown performance tuning device. The key is the combination of Superchips vehicle tuning features combined with the Android operating system and ARCHOS™ internet tablet opening up a whole new world of possibilities.

Here are a few of the countless uses for the Superchips Vivid. Tell us how you want to use yours.

TUNING

- Leading handheld tuning company for trucks, Jeeps and performance cars.
- Tune for high performance horsepower and torque gains, heavy load towing, fuel economy or off-road uses.
- Use of the Android operating system makes it powerful, capable, and flexible.
- Comes with a Bluetooth dongle to sync the vehicle to the device.
- Cleverly uses the Android capabilities to provide a simple yet effective user interface to make tuning a snap.
- 50-state emissions legal and race use only models available.

GAUGES

- Intercepts PIDs on the bus and displays them in real-time.
- Gauges provide vital information when towing, off-road or racing at the track.
- Includes several gauge sets.
- Monitor EGTs while towing to avoid diesel engine troubles.²
- Use performance gauges to maximize track performance.

INCLINOMETER/G-FORCE METER

- Uses on-board 3-axis accelerometer and graphics accelerator.
- Measure pitch and roll.
- Use the information for car setup at the track.
- Establish entrance and departure points for turns.
- Make last minute car suspension adjustments.

GPS CAPABLE¹

- No need to buy another expensive in-cabin device. Just buy a GPS antenna easily found online and GPS app for Android OS.
- Depending on the app, topographical maps are available.

MAINTENANCE MINDER

- No more missing important maintenance intervals.
- Easy to setup and use.
- Uses include reminders for oil changes, rotate tires, and more.
- App automatically recognizes when a check engine light is on and provides a summary.
- No more unnecessary time consuming trips to the dealer.

BACKUP CAMERA CAPABLE¹ (Under development)

- Works as a backup camera monitor.
- Just purchase the USB cable and the camera of your choice.
- Start backing up better and safer in no time.
- No wasted money purchasing another new electronic in-cabin device.

AUDIO/VIDEO EQUIPPED

- Preloaded with music, video and photo applications.
- Take pictures or video in HD quality.
- Share photos or video by syncing with Facebook, YouTube, Picasa or Flickr account.
- Stream video to your home TV in HD with the built-in HDMI output connector (mini HDMI cable sold separately).

GAMING EQUIPPED

- On-board graphics accelerator exploits Android 3D capabilities for games, animated interface and transition effects.
- Let kids and friends entertain themselves on a long road trip.
- Many games utilize the 3-axis accelerometer for a more realistic game playing experience.
- Use the HDMI output to play the game on your TV and use the device as the steering wheel or controller.
