

BULLY DOG
MAKING EVERY RIDE A BULLY!

Make Your
JEEP JK
ABULLY Wrangler
TUNED 3.8L

gauge **GT** tuner

SPECIAL FEATURES:

These features can be used with or without installing a download.

- **Engine Fan:** Turn the engine fan on or off.
- **IDLE Up:** Change engine idle when in park or neutral.
- **TPMS** (tire pressure monitoring system): Air down to as low as 4PSI without a light, no guarantees below 10PSI.
- **Disable Traction Control:** Completely disable traction control, great for off road.
- **Sway Bar Disconnect:** (Rubicon only) Disconnect the sway bar up to 30 mph automatically, there is no physical installation required.
- **Lockers:** (Rubicon only) Engage lockers in 2wd 4wHi and 4wLow, this feature is recommended for those who know how lockers work.

Introducing the **Jeep 3.8L JK Wrangler**
& **Wrangler Rubicon '07-'10** for the **GT Gas**

TUNING LEVELS:

- **Off Road:** A tune that behaves like the regular tune but has lowered throttle sensitivity. A lowered throttle sensitivity gives the driver more control over the power they are putting to the ground. In rough conditions a sensitive throttle can be dangerous.
- **Regular/ Tow Tune:** Great for everyday driving and light towing, will add a little over 10 hp to the wheels at full throttle.
- **Premium:** 91 octane fuel or better. Could see 15 to 20hp.

DOWNLOAD FEATURES:

- **Speed Limiter:** Adjust from 45mph to 200mph.
- **Rev Limiter in Drive:** Adjust from 5000 rpm to 6500 rpm.
- **Rev Limiter in Neutral:** Adjust from 5000 rpm to 5700 rpm.
- **Calibrate Speedometer:** Adjust from a tire size of 23.2" up to 45.5".
