The BRUTE "LP" is designed for the quality conscious professional contractor who requires longevity and durability and doesn't want to sacrifice that for style. The "LP" provides you with best of both. This cargo management tool boasts the heaviest duty lid available today with over-engineered lid bracing including TIG welded joints, you can't find a better lid on the market. We reinforced the lid so check out the part you can't see...the strut reinforced floor, just look under the floor and you will see why this box is sleek but virtually indestructible!
