As a courtesy to its customer ("Jobber"), and with the Jobber's approval, Meyer Distributing, Inc. provides mounting services for a tire/wheel/TPMS/accessories combination purchased by the Jobber (P.O. # _____) ("Products"). By signing this Consent Form the Jobber represents and agrees as follows:

- a) Jobber has placed an order for purchase of Products and consents to Meyer's performance of mounting services in accordance with commercially reasonable standards prior to delivery of the Products to Jobber. Any vehicle that was originally equipped with TPMS must have TPMS sensors installed with the new wheels/tires with no exceptions. Jobber agrees to purchase the appropriate TPMS sensor from Meyer, and Meyer will install the TPMS sensor as part of the mounting service.
- b) All of the information provided herein is accurate and correct. Jobber understands that Meyer's mounting services are performed in reliance on the accuracy of this information.
- c) Once the Products are delivered to Jobber, it is Jobber's responsibility to check and verify appropriate mounting, proper TPMS sensor functionality and proper fitment on the end user's vehicle to ensure the Products are correct for the vehicle and meet all safety standards and legal requirements for driving the vehicle. The wheels should be re-torqued after 50 miles of driving. Failure to do so could result in wheel loss and serious injury or death.
