**\*\*Two most common ordering errors:** Bed size must always be measured.

1. GM Crew Cab and Quad Cab 6'8" or 5'8".
2. Ford F150 Supercrew 5'5" or Superduty Crew Cab 6'6".

Meyer Distributing has implemented a shipping and handling policy that ensures the utmost care is taken with the transportation of painted products. Due to the size of the items, we will only deliver when assistance is available to unload the painted lid. For your assurance that you are getting the correct lid, we ask that you complete the following checklist with the Meyer Distributing driver:

1. Inspect outer box for obvious damage.
2. Verify correct year, make and model on box.
3. Verify paint code, bed style and bed size.
4. Carefully cut tape or glue seal on the box.
5. Open box and visually inspect for damage on surface.
6. Inspect horns specifically (statistically the area most prone to damage).
7. Carefully lift lid and inspect underside.
8. Ensure hardware is attached to frame (shocks, clamps, and keys).
9. Walk around lid and confirm no unacceptable marking on painted surface.

If the purchaser is satisfied that the lid is undamaged and the correct application has been verified, the purchaser's representative will sign the order and the driver will initial to verify acceptance. There will be no returns for lost sales, wrong item ordered, customer cancellation, damage found after delivery acceptance, or missing hardware once Meyer driver has left.
